

ELECTROMACH

An introduction

Company introduction

ELECTROMACH, member of the R.STAHL Technology Group, is a market leader with almost 50 years of experience in the explosion protection technology in the oil- and gas industry. We have an extensive scope of supply complete with engineering, drawing, manufacturing, programming, testing and commissioning.

ELECTROMACH customers benefit from the professional experience of our qualified engineers, draughtsmen and technicians. Since our establishment in 1962 we have grown to an organisation of 150 employees.

Our applications can be found in: pump- and compressor systems, turbine- and loading arm systems, packaged units, control panels for rotating equipment, marshalling cabinets, distribution- and control system for flameproof application, transformers in flameproof enclosures, explosion proof terminal- and control boxes, interface cabinets, and also intrinsically safe interface systems.

Your Safety – Our Reality

Total package electrical System Solution including:

- Electrical engineering
- Consulting
- Software Engineering
- Prototyping
- Documenting
- Mechanical designing
- Manufacturing
- Programming
- Testing – QA/Factory Acceptance Test
- Certifying
- Commissioning
